

I am responding to the possible changing of Indiana's no call law to one that is of a more general restrictions. I wish to request Indiana's law be left as it is and not be superceed by a federal law that can weaken ours. It is really nice to be able to sit down to our evening meal and not be interupped two or three times by someone trying to peddle something that I don't want. I am still of sound enought mind that If I wish to buy an item or service I am able to find it on my own. I don't need to be hassled in my own home by some outsider.

Thank you for allowing me to state my stand on this issue.
